Factsheet - Class B

Herald
Leading-edge investing

Fund Objective

The Herald Worldwide Technology Fund (HWTF) is an Open Ended Investment Company (OEIC) that seeks to achieve capital growth, in excess of the average, by investing in quoted companies in the technology, communications and multi-media sectors. As its name suggests, the Fund invests in companies worldwide, but especially North America and the UK.

Fund Managers

Katie Potts is the lead fund manager for Herald Worldwide Technology Fund. Katie founded Herald Investment Management Limited in 1993. Fati Naraghi joined as co-manager in November 2019. Prior to this, for 20 years, she worked at Newton Investment Management as their Global Technology Analyst where she was responsible for c. £3bn of investments.

Important Information

The objective of the Fund is to achieve capital growth by investing in the securities of issuers in the technology, communications and multi-media sectors which the Investment Manager believes offer potential capital growth. This report has been issued on behalf of Herald Worldwide Technology Fund, and has been approved by Herald Investment Management Limited, its investment manager. Herald Investment Management Limited is authorised and regulated by the Financial Conduct Authority. Market and currency movements may cause the value of shares, and the income from them, to fall as well as rise, and you may get back less than you invested when you decide to sell your shares. Certain statements in this report constitute 'forward-looking' statements. Such statements, including the intended actions and performance objectives of the Fund, involve unknown risks, uncertainties and other factors which may cause actual results, performance or achievements of the Fund to differ materially from those implied by such forward-looking statements.

Fund Information

Fund Manager Comment

The fund closed the year with a very strong performance for the month and the full year. The strongest performers during the month were our cyber security stocks, Fireeye (+49.9%), CyberArk (+38.8%), Varonis Systems (+32.5%) and Qualys (+25.3%). The poorest performers were NVIDIA (-4.8%), Xilinx (-4.9%), Medallia (-7.3%), and Alibaba (-13.7%). We benefitted from increasing our exposure to cyber security stocks during the past 6 months. We also benefitted from taking profits from Advanced Micro Devices in Q4, after strong performance earlier in the year.
